

Statement on Georgia Indictment and Attack Ads

Woman's National Democratic Club – Rosalyn L. Coates, President

August 22, 2023

A jury comprised of everyday Americans in the State of Georgia has weighed evidence and decided to charge Former President Donald Trump and others with felony racketeering and numerous conspiracy charges in a 41-count indictment. In an effort to discredit the decision made by this diverse group of Georgia residents the GOP has released a series of advertisements attacking the filing prosecutor, Fulton County DA Fani Willis. These attack ads, rife with racism and misogyny, are an attempt to politicize our system of courts and undermine the democratic ideal that justice is blind. We are confident that the People of Georgia will see through these deliberate lies and reach a fair verdict based on fact.
